**Attachments:** appendices.doc

Attachments are a little bit different for FRP than SPCC. You're correct no FRP is attached

### Attachments

- complete suite of checklists
  - cover page
  - plan review
  - site inspection
  - planning distance calcs
  - response planning summary
  - worst case discharge
- figures
- photolog
- facility contact info
- facility documentation
- signed forms
  - CBI release
  - Release of Document Form
- Facility Transmittal letter
- ICIS form

Finished the cover page and plan review checklist yesterday and working on the inspection checklist now – many things on here we didn't specifically verify but I'm putting as yes as I'm confident they would have been yes's had we asked each individual one

Question is the format of the final product – was looking at the appendices.doc from the SPCC Haag and I would assume that the actual FRP isn't included as attachment A is it?? Is the cover memo tab the only thing that goes in front of the appendices?? (i.e. since the Wathena one isn't completely done and I'm kinda leapfrogging it with this one I don't have a final template to go off of)

balls in your court

- complete plan review checklist and site inspection checklist
- figure out what we still need from them and send them an email reminder
